Tour guides and speakers

G1 — Shanti room host
Hallway NE corner · 8′-2″ / 1′-1″
Holds the line in the chaos hallway and lets about 8 people into the Shanti room every 90 seconds. One-line welcome; stays out of the walking line.

G2 — Shastra guide
North of the scrolls · 20′-11″ / 5′-8″
Speaks to each group on the open floor in front of the spine wall, then sends them south through the scroll aisle to the NFC wall.

G3 — Sant guide
Facing the portrait · 27′-4″ / 10′-4″
Speaks while the group faces the split portrait, then splits them around both ends: north past the bicycle, south past the book and birthday wall, meeting at the panel backs.

V — Booth volunteers (3): one each at BKY, Better Living and BAPS Charities, standing inside their booth's standing zone so the walkway stays clear.

Other lights

B — Hallway flicker bulbs (2) — cold bare-bulb pendants, about 7′-6″ up

L — Jali LED strip — 2700K strip behind the backlit jali on the Shanti west wall

C — Shanti ceiling light — one warm light above the room

L — Closing wall linear light — one slim LED wall-washer over the 5 prints

What changed: scroll frame and flow

The hanging-scroll truss shrinks from 5′-7″ × 11′-5″ to **7′-0″ wide × 5′-0″ deep**, its NW corner 19′-2″ from W3 and 7′-10″ from W1. The 5 scrolls (1′-6″ × 9′-6″) hang in two columns, 3 west and 2 east, with a 3′-7″ aisle running north–south, so visitors walk from the spine wall straight through the scrolls to the NFC wall.

GAP	BEFORE	NOW
Spine fronts → frame	3′-5″	**6′-7″**
NFC screens → frame	3′-5″	**6′-8″**
Aisle through scrolls	3′-4″ E–W	**3′-7″ N–S**

Flow: Hallway → Shanti room → BLS → Charities → BKY → along the spine wall → south through the scroll aisle → NFC wall → split: north loop past the bicycle, south loop past the book and birthday wall → both meet behind the portrait → closing wall → exit.
